The "Mirna Sišul" team presents you with a unique interior decoration:

It was developed as a response to the daily careful monitoring and listening to the wishes of our loyal followers and fans of our distinctive expression, and also influenced by the persistent insistence of interior designers and architects whose clients want something completely different and unique in their spaces.

We offer wallpapers and large-sized art prints, and the collections are divided into three thematic units.

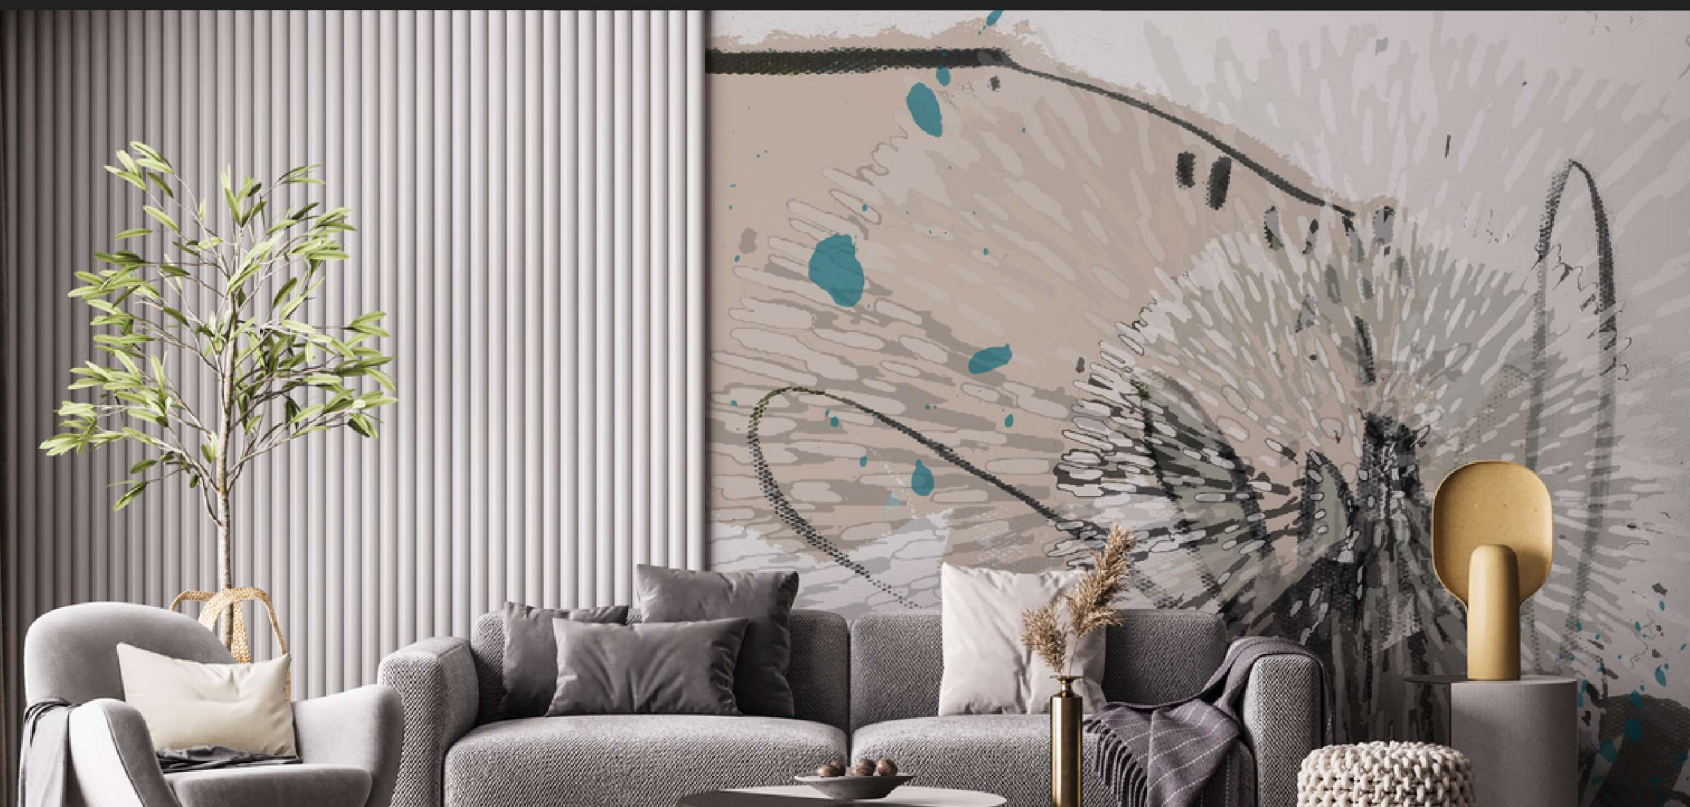

MÉDITERRANEO COLLECTION

SCENT. PASSION. LIFE.

Ah; that eternal and inexhaustible source of life...sea, cosiness, fragrances, colors...everything. The collection is inspired by our travels and exploration of the Mediterranean countries, and shows the indigenous living world of magical colors and shapes fused with fragments of nature and historical heritage.

MÉLODIE COLLECTION

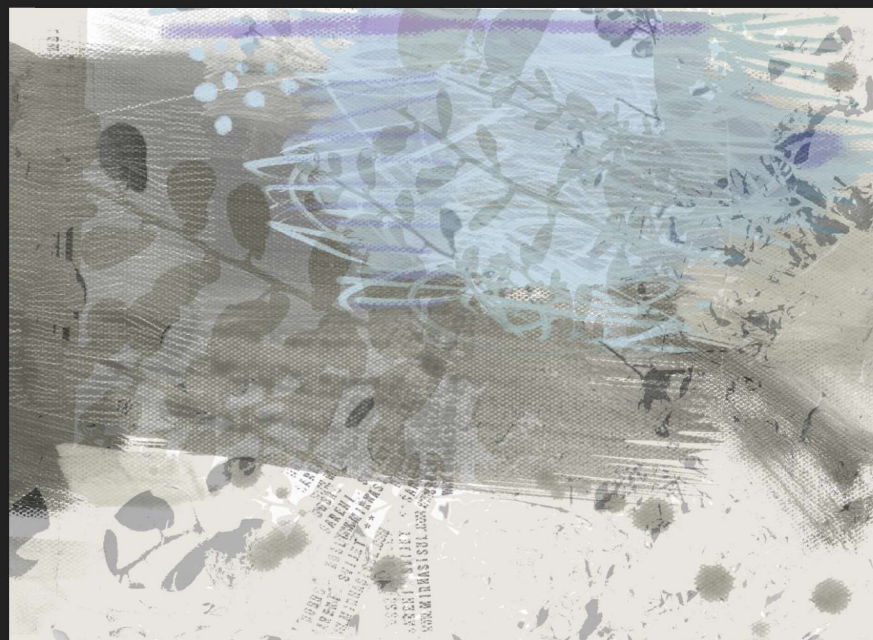

INSPIRATION. SENSE. TOUCH.

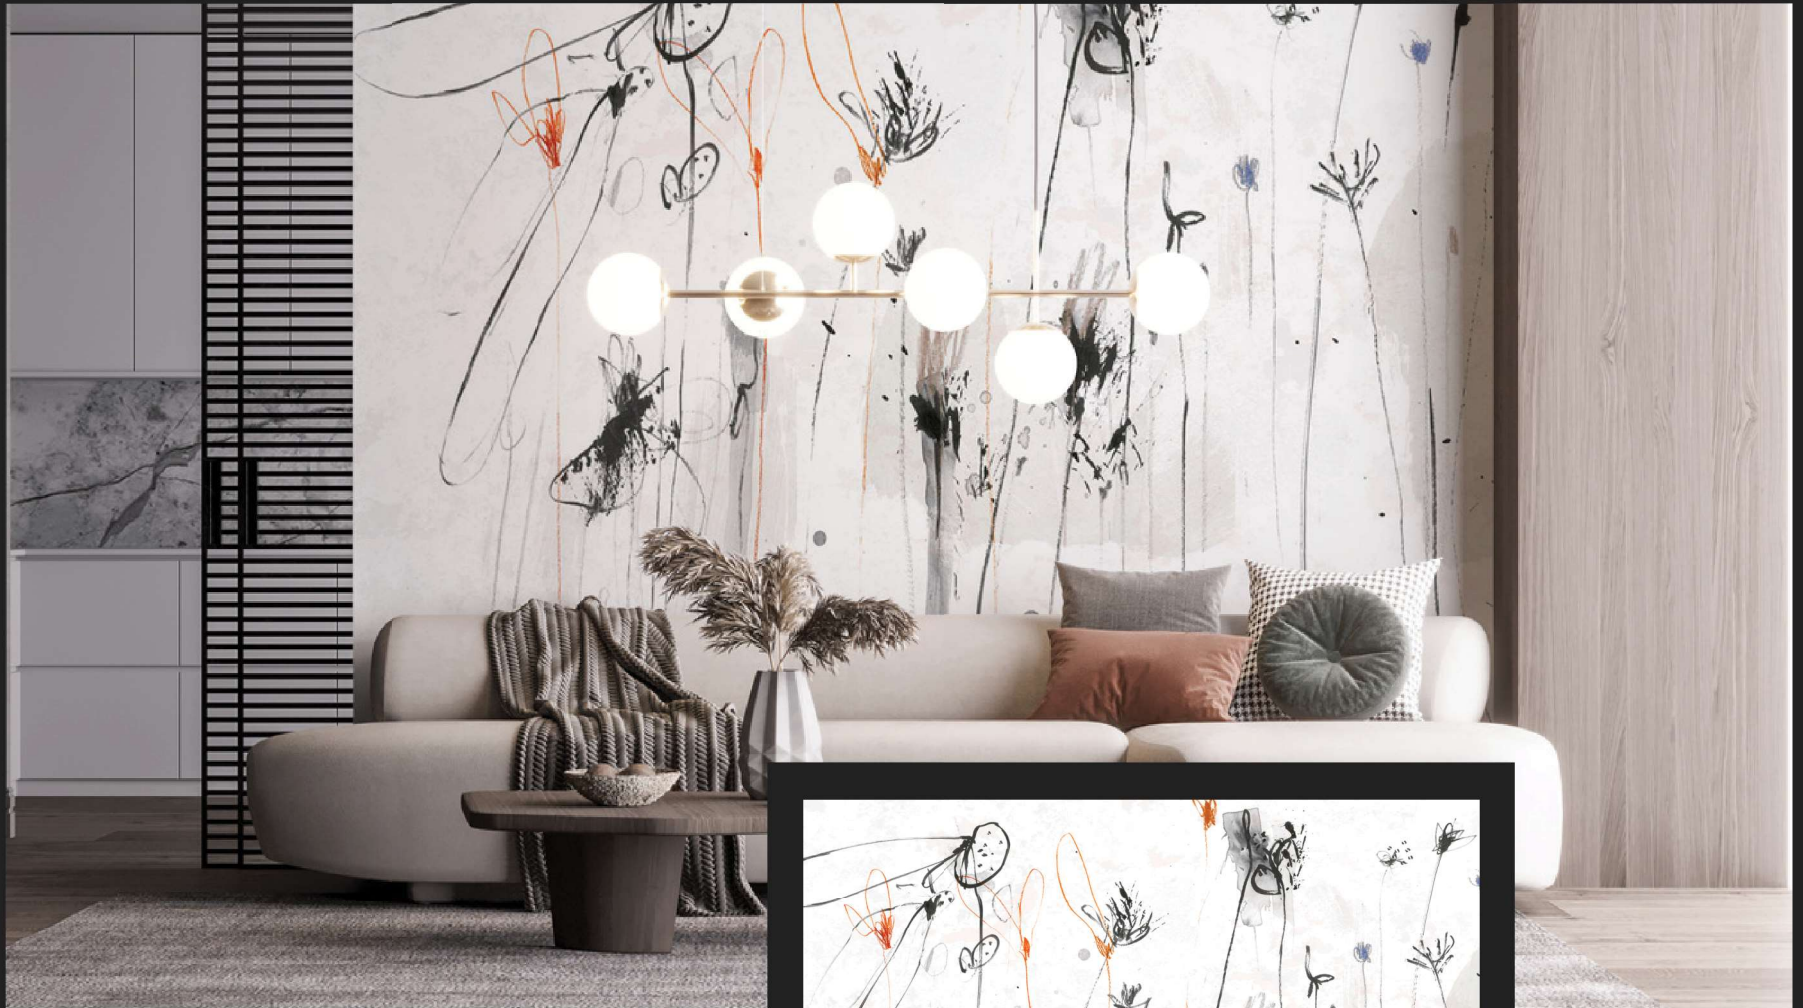

"I can't live without music.
Music is my energy.
I work listening to music.
My pictures are music."

Mirna Sišul's quote best represents the collection that results from the experience of constantly listening to endless melodies of various genres from all eras.

Inspired by the sounds of perfect chords, Mirna's brush becomes a conductor's wand and transfers unique creations to canvas.
